Capability Statement

Telos Technologies LLC · Virginia · Small Business

Senior engineers delivering AI agents and modern, secure applications for civilian agencies.

CORE COMPETENCIES

- **AI agents and intelligent automation** — LLM applications, agentic workflows, retrieval-augmented generation, document processing.
- **Application modernization** — legacy web systems rebuilt as secure, accessible, cloud-native applications.
- **Full-stack and mobile development** — React / Next.js, React Native (iOS, Android), Node.js, Python, REST and streaming APIs.
- **Cloud engineering** — CI/CD, infrastructure as code, containers, and cloud and AI platform integration on any major provider.
- **Technical advisory** — fractional CTO, architecture reviews, requirements and roadmaps (BRD/PRD).

DIFFERENTIATORS

- **Senior-only delivery.** Every engineer has 8+ years in production; the core team brings 10 to 25+ years each.
- **Founder-led accountability.** The principal who scopes the work stays on it through delivery.
- **Product builders, not just contractors.** Telos builds and runs its own AI and content platforms.
- **Transparent pricing.** Line-item, fixed-price proposals with named deliverables and milestones.

PAST PERFORMANCE

LastingMind, Inc. — Consumer AI application

Front-end engineering partner · Jul 2025 – May 2026 · Commercial

Built the React Native iOS app (voice story capture, audio, streaming AI chat) and the Next.js web app (paywall, family sharing, dashboards) on the client's AI platform. Shipped the public iOS launch on schedule with zero launch-blocking defects and handed over a reusable component library the client's team now extends.

SELECTED WORK

- **Good News Bible Church** (goodnewsbible.org) — custom church relationship management (CRM) platform for a bilingual English/Russian congregation, with Twilio two-way and group texting and an AI assistant for staff.
- **ProAgent Me** (proagentme.com) — marketplace of AI agents trained on professionals' expertise, with handoff to the human expert. Next.js, pgvector, Stripe Connect, MCP.
- **Telos Media** (telosplatform.org) — no-code Scripture app and blog platform (PWA, translations, custom domains); has run Slovocars.org for several years.

Selected Work and Team Experience

Telos Technologies LLC · UEI Y6W9A95E6GT6 · CAGE 26P46

SELECTED WORK — BUILT AND OPERATED BY TELOS

Good News Bible Church — church relationship management platform

goodnewsbible.org · Nonprofit · In production

- Bilingual English/Russian public website and a custom-built church relationship management (CRM) back office.
- Twilio messaging: SMS sign-up and opt-in, two-way texting with members from the CRM, and group announcements.
- AI assistant for staff: plain-language questions answered from the church's own CRM records.

ProAgent Me — AI agent marketplace

proagentme.com · Telos product · Early access

- AI agents trained on named professionals' expertise, with a one-click handoff to the human expert.
- Two-agent guardian/expert design that protects each expert's intellectual property.
- Concierge agent with semantic search (PostgreSQL/pgvector); Stripe Connect payouts; MCP integrations.
- Next.js, TypeScript, Clerk, PostgreSQL, Vercel and Railway.

Telos Media — no-code Scripture and content platform

telosplatform.org · Telos product · In production

- Multi-tenant platform for running a Bible web app and blog without code: translation manager, search, highlights and notes.
- Installable web app (PWA), team roles, custom domains, interface localization and social distribution.
- Has run Slovocars.org, a digital Scripture distribution project, for several years.

TEAM EXPERIENCE

Individual experience of Telos's principal engineer before Telos was formed. These were not Telos Technologies contracts.

International Mission Board

Full-stack web and mobile developer · 2016–2018

- Cross-platform e-reader and e-learning apps in React and React Native.
- Serverless GraphQL API on AWS AppSync, Lambda and DynamoDB.
- Multilingual search with Algolia.

Retail and grocery e-commerce mobile apps

Telegraph Creative, Bell Media · 2018–2019

- React Native iOS and Android apps with GraphQL servers bridging Magento REST APIs.
- Authentication, catalog, search, cart and Stripe payments.

Corra

Front-end developer · 2019–2020

- Progressive web app on Magento GraphQL APIs: multistep checkout, authentication, reusable component library.

Speak Creative

Web and mobile developer · 2020–2021

- Features for the Sitewrench CMS: user and file management, custom forms, e-ticketing, events.

Multi-tenant e-learning and e-reading SaaS

Independent · 2020–2021

- Designed and deployed a SaaS product serving clients worldwide, built for global availability and scale.
